-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 June 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

SECOND ACTION REJECTION

(Paper# 9/20/2004)

DRAWINGS

1. This application has been filed with drawings that are considered informal; said drawings are acceptable for examination purposes. The review process for drawings that are included with applications on filing has been modified in view of the new requirement to publish applications at eighteen months after the filing date of applications, or any priority date claimed under 35 U.S.C. §§119, 120, 121, or 365.

The drawings filed on 6/21/2004 are accepted by the Examiner; however, said drawings are subject to review by the USPTO Official Draftsperson.

CLAIM REJECTIONS — 35 U.S.C. §101

2. **Rejections Maintained.**

CLAIM REJECTIONS — 35 U.S.C. §103(a)

3. **Rejections Maintained.**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 3622

4. Claims 1-26 are rejected under 35 U.S.C. §103(a) as being obvious over Hunt 6,223,215 (4/24/2001) [US f/d: 9/22/1998] (herein referred to as "Hunt").

As per independent claim 1, Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows all the elements and limitations of claim 1.

Hunt lacks explicit recitation of the phrase "information on a third party being able to supply additional information about said product from a first user. . . ."; however,

It would have been obvious at the time the invention was made to a person having ordinary skill in the art that the disclosure of Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document; and particularly col. 2, ll. 32-50; and col. 1, ll. 35-60) implicitly shows "information on a third party being able to supply additional information about said product from a first user. . . ." and it would have been obvious to modify and interpret the disclosure of Hunt cited above as implicitly showing "information on a third party being able to supply additional information about said product from a first user. . . .", because modification and interpretation of the cited disclosure of Hunt would have provided means of "*interactive network session tracking form inbound source to net sale. . . .*" (see Hunt (col. 2, ll. 5-15), based on the motivation to modify Hunt so that "*the 'seam' between the catalog subsystem and the purchase subsystem is eliminated.*" (See Hunt (col. 2, ll. 49-60)).

Art Unit: 3622

As per dependent claims 2-10, Hunt shows the method of claim 1 and subsequent base claims depending from claim 1.

Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows all of the elements and limitations of claims 2-10; however,

Hunt lacks explicit recitation of some of the elements and limitations of claims 2-10.

"Official Notice" is taken that both the concepts and the advantages of all of the elements and limitations of claims 2-10, were well known and expected in the art by one of ordinary skill at the time of the invention because, for example, it would have been obvious to modify and interpret the disclosure of Hunt cited above as showing all of the elements and limitations of claims 2-10, because modification and interpretation of the cited disclosure of Hunt would have provided means of *"interactive network session tracking form inbound source to net sale. . . ."* (see Hunt (col. 2, ll. 5-15), based on the motivation to modify Hunt so that *"the 'seam' between the catalog) subsystem and the purchase subsystem is eliminated."* (See Hunt (col. 2, ll. 49-60)).

Independent claim 11 is rejected for substantially the same reasons as independent claim 1.

Art Unit: 3622

Independent claim 12 is rejected for substantially the same reasons as independent claim 1.

As per independent claim 13, Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows all the elements and limitations of claim 13.

Hunt lacks explicit recitation of the phrase “prompting a user to select a desired product and vendor form which said user intends to purchase said product. . . .”; however,

It would have been obvious at the time the invention was made to a person having ordinary skill in the art that the disclosure of Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows “prompting a user to select a desired product and vendor form which said user intends to purchase said product. . . .” and it would have been obvious to modify and interpret the disclosure of Hunt cited above as implicitly showing “prompting a user to select a desired product and vendor form which said user intends to purchase said product. . . .”, because modification and interpretation of the cited disclosure of Hunt would have provided means of “*interactive network session tracking form inbound source to net sale. . . .*” (see Hunt (col. 2, ll. 5-15), based on the motivation to modify Hunt so that “*the ‘seam’*”).

Art Unit: 3622

between the catalog) subsystem and the purchase subsystem is eliminated.” (See Hunt (col. 2, ll. 49-60)).

Independent claim 14 is rejected for substantially the same reasons as independent claim 1.

As per dependent claims 15-20, Hunt shows the method of claim 14 and subsequent base claims depending from claim 14.

Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows all of the elements and limitations of claims 15-20; however,

Hunt lacks explicit recitation of some of the elements and limitations of claims 15-20.

“Official Notice” is taken that both the concepts and the advantages of all of the elements and limitations of claims 15-20, were well known and expected in the art by one of ordinary skill at the time of the invention because, for example, it would have been obvious to modify and interpret the disclosure of Hunt cited above as showing all of the elements and limitations of claims 15-20, because modification and interpretation of the cited disclosure of Hunt would have provided means of “*interactive network session tracking form inbound source to net sale. . . .*” (see Hunt (col. 2, ll. 5-15), based on the

Art Unit: 3622

motivation to modify Hunt so that *“the ‘seam’ between the catalog) subsystem and the purchase subsystem is eliminated.”* (See Hunt (col. 2, ll. 49-60)).

Independent claim 21 is rejected for substantially the same reasons as independent claim 1.

Independent claim 22 is rejected for substantially the same reasons as independent claim 21.

Independent claim 23 is rejected for substantially the same reasons as independent claim 13.

As per dependent claims 24-26, Hunt shows the method of claim 23.

Hunt (the ABSTRACT; FIG. 1; through FIG. 10; col. 1, ll. 10-67; col. 2, ll. 1-67; col. 3, ll. 30-67; col. 4, ll. 1-67; col. 5, ll. 1-67; col. 6, ll. 1-67; col. 7, ll. 1-67; col. 8, ll. 1-15; and whole document) implicitly shows all of the elements and limitations of claims 24-26; however,

Hunt lacks explicit recitation of some of the elements and limitations of claims 24-26.

“Official Notice” is taken that both the concepts and the advantages of all of the elements and limitations of claims 24-26, were well known and expected in the art by one

of ordinary skill at the time of the invention because, for example, it would have been obvious to modify and interpret the disclosure of Hunt cited above as showing all of the elements and limitations of claims 24-26, because modification and interpretation of the cited disclosure of Hunt would have provided means of *"interactive network session tracking form inbound source to net sale. . . ."* (see Hunt (col. 2, ll. 5-15), based on the motivation to modify Hunt so that *"the 'seam' between the catalog subsystem and the purchase subsystem is eliminated."* (See Hunt (col. 2, ll. 49-60)).

RESPONSE TO ARGUMENTS

5. Applicant's arguments (Amendment paper# 6/21/2004) have been fully considered but they are not persuasive for the following reasons:

Applicant's arguments are moot based on new grounds of rejection introduced by the Examiner in the instant Office action.
